TIPS FOR A SUCCESSFUL PICTURE DAY

Our team has been scheduled on _____ (day) at _____ PM at Antimi Ball Fields located in Cosmo Park. We will gather **10 min before** our photo time at the photography stations located at the west entrance to Antimi Ball Fields not far from the skate park, to prep and get ready to be photographed. If there is bad weather, pictures will be moved inside to the equipment shed (behind the purple field) at Antimi. **Photos are Rain or Shine.**

- Be prepared ahead of time by ordering online: <https://preorder.groupphotographers.com/?wo=709496> & printing and bringing your receipt with you. This gets you in and out the fastest without hassle and having to stand in line at the sales station and being rushed to fill things out at the park.
- **Don't be late.** Parking is sometimes scarce, and the photographer starts pictures AT our appointment time. **If you are late you will miss the team photo.**
- We are required to follow Antimi & local guidelines for Covid Prevention. Anyone sick or with Covid symptoms should NOT attend. The photographer has asked that only one healthy parent or guardian per child attend photos.
- **PLEASE BRING YOUR OWN PHOTO PROP – Bat or glove (only one). They will not be provided by the photographer.**
- **Payment is due before photos are taken. If you do not prepay online...** Credit card payments are run on site before photography, at the sales station. Legends also accepts personal checks, and exact change cash for payment.
- Children will proceed into the photo area with their order forms in hand. Each child hands the photographer/assistant their form when their individual turn. If you are late with your form it makes it hard to match up to the right child.
- **Legends Photography is doing regular team photos this season.** (Last year they did composite individual photos of everyone photographed in place of the team).
- Only coaches and athletes will be allowed in the photo area. Please DO NOT stand behind the photographer especially for the group photo. It makes it very hard for the children to know where to look, and hard for the photographer to keep athlete's attention on the camera.
- Photos will be individually mailed to each athlete in about 4 weeks.
